

Recycling Made Easy.

Step #1- Order

Step #2- Fill

Step #3- Seal

Step #4- Ship Container

Step #5- Call for Pickup

Step #6- Recycling and documentation

As you may be aware, over the past few years, federal, state and local regulations concerning spent lighting and electronic equipment have become increasingly complex, affecting a wide range of commercial and industrial businesses.

Much of today's lighting and electronic equipment contains hazardous materials such as mercury, lead or PCBs. Concerns over releases into the air and water are driving stricter disposal regulations.

Your company may be at risk if you are not recycling.

RECYCLEPAK® makes recycling easy. The prepaid recycling program ensures complete compliance while reducing the risk of contamination by storing hazardous materials at your facility. When the container is full, simply ship it out, it's prepaid!

One price includes everything you need to begin recycling -- packaging, prepaid freight from your facility, processing and certificates of recycling. Best of all recycling is provided by the largest environmental services' company in the world. This offers you the most liability protection!

Order today and see how easy recycling lamps and ballasts can be!

Order today and see how easy recycling lamps and ballasts can be!"
Compliance with confidence®
